

- AON Network Diagram

- Possible paths through the diagram and their durations:

Three paths:

- 1) Path: A → B → C → G → H → I, Duration: 19 days
- 2) Path: A → B → D → E → F → I, Duration: 14 days
- 3) Path: A → F → I, Duration: 8 days

- Critical Path:

A → B → C → G → H → I, with a total duration of 19 days. This is the path that dictates the minimum time required to complete the project.
